BEFORE THE BOARD OF COUNTY COMMISSIONERS FOR JOSEPHINE COUNTY
STATE OF OREGON

In the Matter of	)	
Fair Housing in Josephine County	)	Resolution No. 2026-037

LET IT BE KNOWN TO ALL PERSONS of Josephine County that **discrimination** in the sale, rental, lease, advertising of sale, rental or lease, financing of housing or land to be used for the construction of housing, or in the provision of brokerage or rental services because of race, color, religion, sex, disability (physical or mental), familial status (children) or national origin is **prohibited** by Title VIII of the federal Fair Housing Amendments Act of 1988. It is the policy of Josephine County to support the Fair Housing Amendments Act of 1988 and to implement a Fair Housing Program to ensure equal opportunity in housing for all persons regardless of race, color, religion, sex, disability (physical and mental), familial status (1. children, and 2. actual or perceived sexual orientation, gender identity or marital status of its members) or national origin. Therefore, the Josephine County Board of Commissioners does hereby pass the following Resolution:

BE IT RESOLVED that within the resources available to Josephine County through city, county, state, federal and community volunteer sources, Josephine County **will assist all persons** who feel they have been discriminated against because of race, color, religion, sex, disability (physical and mental), familial status (children) or national origin **in the process of filing a complaint** with the Oregon Civil Rights Division or the U.S. Department of Housing and Urban Development, Seattle Regional Office Compliance Division, that they may seek equity under federal and state laws.

BE IT FURTHER RESOLVED that the County shall publicize this Resolution and through this publicity shall cause real estate brokers and sellers, private home sellers, rental owners, rental property managers, real estate and rental advertisers, lenders, builders, developers, home buyers and home or apartment renters to become aware of their respective responsibilities and rights under the Fair Housing Amendments Act of 1988 and any applicable state or local laws or ordinances.

THE FAIR HOUSING PROGRAM, for the purpose of informing those affected of their respective responsibilities and rights concerning Fair Housing law and complaint procedures, will at a minimum include, but not be limited to: 1) the printing, publicizing and distribution of this Resolution; 2) the distribution of posters, flyers, pamphlets and other applicable Fair Housing information provided by local, state and federal sources, through local media of community contacts; and 3) the publicizing of locations where assistance will be provided to those seeking to file a discrimination complaint.

DATED THIS _____ day of October, 2026.

1. BASIC INFORMATION

Purpose of the Funding

The Office of Justice Programs (OJP) is committed to advancing work that furthers the U.S. Department of Justice's (DOJ) mission to keep our country safe and secure and uphold the rule of law and protect the rights of American citizens. OJP provides federal leadership, funding, and other critical resources to directly support law enforcement, combat violent crime, protect American children, provide services to American crime victims, and address public safety challenges, including human trafficking and the opioid crisis.

This is a notice of funding opportunity (NOFO) for the **BJA FY 2026 Edward Byrne Memorial Justice Assistance Grant (JAG) Program—Local Formula**. This opportunity will provide formula funding to eligible units of local government to, in general, support hiring additional personnel and/or purchase equipment, supplies, contractual support, training, technical assistance, and information systems for criminal justice or civil proceedings, including for any one or more of the following program areas:

1. Law enforcement programs.
2. Prosecution and court programs.
3. Prevention and education programs.
4. Corrections and community corrections programs.
5. Drug treatment and enforcement programs.
6. Planning, evaluation, and technology improvement programs.
7. Crime victim and witness programs (other than compensation).
8. Mental health programs and related law enforcement and corrections programs, including behavioral programs and crisis intervention teams.
9. Implementation of state crisis intervention court proceedings and related programs or initiatives, including but not limited to mental health courts, drug courts, veterans courts, and extreme risk protection order programs.
10. Programs to purchase and operate unmanned aircraft systems (as defined in section 44801 of title 49, United States Code) to benefit public safety.
11. Programs to purchase and operate counter-UAS systems (as defined in section 44801 of title 49, United States Code) included on the list of technologies established by subsection (d)(2)(A)(iii) section 210G of the Homeland Security Act of 2002 (6 U.S.C. 124n(d)(2)(A)(iii)) to exercise the authority granted under subsection (a)(2) of such section.

Additionally, JAG funds awarded under this NOFO may be used for any purpose indicated here: Purposes for Which Funds Awarded Under the Edward Byrne Memorial Justice Assistance Grants (JAG) Program May Be Used.

See the Eligible Applicants section for eligibility details.

Funding Details

Announcement Type	Initial
Assistance Listing Number	16.738
Statutory Authority	Pub. L. No. 90-351, Title I, Part E, subpart 1 (codified at 34 U.S.C. 10151 - 10158); see also 28 U.S.C. 530C(a)
Grants.gov Opportunity Number	O-BJA-2026-172705
Expected Total Amount of Funding	Up to $96,518,469
Anticipated Number of Awards	1,190
Award Type(s)	Grants
Anticipated Award Amount	Up to $4,964,030
Expected Award Period(s)	24 months (awards less than $25,000) or 48 months (awards $25,000 or more) starting on October 1, 2025

Key Dates and Times

NOFO Release Date	August 25, 2026
SAM.gov Registration/Renewal	Begin the process by September 1, 2026, and no later than September 9, 2026
Step 1: Grants.gov Deadline	11:59 p.m. ET on October 9, 2026
Step 2: JustGrants Deadline	8:59 p.m. ET on October 16, 2026

See Questions? at the end of this NOFO for agency contact information.

2. ELIGIBILITY

Eligible Applicants

The types of entities that are eligible to apply are:

Government Entities

- County governments
- City or township governments
- Special district governments
- Native American tribal governments (federally recognized)

Other

- Other units of local government

"Other" Entities Definition:

- By law, for purposes of the JAG Program, the term "units of local government" includes a town, township, village, parish, city, county, borough, or other general-purpose political subdivision of a state, or it may be a federally recognized American Indian tribal government that performs law enforcement functions (as determined by the Secretary of the Interior). A unit of local government also may be any law enforcement district or judicial enforcement district established under applicable state law with authority to independently establish a budget and impose taxes; for example, in Louisiana, a unit of local government means a district attorney or parish sheriff.

Prior to starting an application to this NOFO, all prospective unit of local government applicants should check the JAG Allocations page and the link to their relevant state to determine if they are eligible for a direct award from BJA.

- Only one eligible unit of local government that is a member of a disparate group may apply for funding as the fiscal agent for the other members of the group.
- Applications from ineligible units of local government (*i.e.,* not listed in the allocation charts) will not be accepted for funding.

Cost Sharing (Match) Requirement: This NOFO does **not** require cost sharing (match).

3. PROGRAM DESCRIPTION

Statutory Authority

Pub. L. No. 90-351, Title I, Part E, subpart 1 (codified at 34 U.S.C. 10151-10158); see also 28 U.S.C. 530C(a)

Agency Funding Priorities

In order to advance public safety and help meet its mission, OJP's priorities include:

a. Directly supporting law enforcement operations (including immigration law enforcement operations);
b. Combatting violent crime;
c. Supporting services to American citizens;
d. Protecting American children; and
e. Supporting American victims of trafficking and sexual assault.

Areas of Emphasis

BJA recognizes that many state and local criminal justice systems currently face challenging fiscal environments and that an important, cost-effective way to relieve those pressures is to share or leverage resources through cooperation among federal,

state, local, tribal, and territorial law enforcement. BJA encourages state and local recipients of FY 2026 JAG funding to join federal law enforcement agencies in addressing the following challenges.

Combating Violent Crime: JAG funds may be used to implement, enhance, or expand projects that combat violent crime. This should include directly supporting law enforcement operations.

Specific activities could include addressing human trafficking of American citizens; dismantling criminal gangs, street crews, and drug networks, including drug manufacturing, dealing, and trafficking; and cracking down on the open use of illegal drugs. State and local agencies are encouraged to coordinate with their United States Attorneys and Project Safe Neighborhoods grantees in order to leverage JAG funding for violent crime reduction projects, including the DOJ Operation Take Back America to eliminate cartels and transnational criminal organizations, and to coordinate their law enforcement activities with those of federal law enforcement agencies such as the Federal Bureau of Investigation (FBI); the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF); the Drug Enforcement Administration; the United States Marshals Service; and the Department of Homeland Security. Further, state and local agencies may use JAG funds to protect the public, critical infrastructure, mass gathering events, and public facilities from threats posed by the careless or unlawful use of unmanned aircraft systems (UAS), as well as to interrupt drug cartels' use of UAS for smuggling and surveilling law enforcement, to include purchase of UAS (see BJA's UAS page for prior approval requirements before using JAG funds for UAS or counter-UAS) or equipment or services for the detection, tracking, or identification of drones and drone signals.

Immigration Enforcement: State and local agencies may use JAG funds to partner with federal law enforcement on immigration enforcement operations (e.g., information sharing, entering into and fully participating in a 287(g) partnership and/or a Homeland Security Task Force, honoring detainers, protecting critical infrastructures, and information/intelligence problems).

Safe Communities: State and local agencies may use JAG funds to support services to American citizens and American victims of crime to create safe communities. JAG funds can be used to collaborate with federal law enforcement and task forces to address endemic vagrancy and encampments that create safe havens for drugs, crime, and human trafficking. Additionally, state and local agencies may use JAG funds to focus on improving public order and quality of life through enforcement and prosecution of nuisance abatement and blight including, among other things, petty larceny and criminal damage to property, as well as utilization of maximally flexible civil commitment, institutional treatment, and step-down treatment standards to address untreated mental health and substance use disorders. JAG funds may also be used to support American victims of trafficking and sexual assault.

Safe Houses of Worship: State and local agencies may use JAG funds to respond to and deter threats to houses of worship and other religious institutions, including religious schools. Religious institutions have recently been targeted for acts of violence and desecration. These organizations typically lack sufficient security resources to respond to heightened threats. State and local law enforcement support to houses of worship, religious schools, and other religious institutions is an effective way to combat such threats.

Unallowable Activities: The following are certain unallowable costs and certain activities that are out of the program scope and will not be funded.

1. Out of program scope is any program or activity, at any tier that, directly or indirectly, violates (or promotes or facilitates the violation of) federal immigration law (including 8 U.S.C. § 1373) or impedes or hinders the enforcement of federal immigration law—including by failing to comply with 8 U.S.C. § 1373, give access to DHS agents, or honor DHS requests and provide requested notice to DHS agents.
2. Out of program scope is any program or activity, at any tier that violates any applicable Federal civil rights or nondiscrimination law. This includes violations that (1) indirectly violate the law, including by promoting or facilitating violations; or (2) unlawfully favor individuals in any race or protected group, including on a majority or minority, or privileged or unprivileged, basis, within a given area, population, or sector.
3. As specified in the DOJ Grants Financial Guide, in Chapter 3.13 "Unallowable Costs" ("Legal Services for Aliens"), any obligations of funds, at any tier, under this award to provide (or to support the provision of) legal services to any removable alien or any alien otherwise unlawfully present in the United States shall be unallowable costs for purposes any award made under this notice, but the foregoing shall not be understood to apply: (1) to legal services to obtain protection orders for victims of crime; or (2) to immigration-related legal services that may be expressly authorized or required by any law, or any judicial ruling, governing or applicable to the award.

Formula Allocations

The FY 2026 Local JAG Allocations are listed on the JAG Allocations website, with separate lists for each state. According to the JAG Program statute, a "disparity" may exist between the funding eligibility of a county and its associated municipalities. See 34 U.S.C. § 10156(d)(4). **Units of local government identified as disparate must select a fiscal agent that will submit an application for the total allocation that includes all disparate jurisdictions.** See the JAG FAQs for more information on the requirements for disparate groups.

The JAG statutory formula is fully described within the JAG Technical Report.

Other JAG Statutory Requirements

Certification and Assurances: The JAG statute, at 34 U.S.C. § 10153 (A)(1-5), details requirements related to governing body review and public comment of a JAG application, prohibition on supplanting, as well as other requirements for which JAG recipients must submit to BJA certification and assurances.

Prohibited Items: The JAG statute, at 34 U.S.C. § 10152, prohibits the use of JAG funds for certain items, and it prohibits the use of JAG funds for other items unless BJA grants a waiver. The JAG Prohibited Expenditures Guidance provides lists, details, definitions, and procedures for prohibited expenditures under the BJA JAG Program.

Administrative Costs: The JAG statute, at 34 U.S.C. § 10152, requires that not more than 10 percent of a JAG grant may be used for costs incurred to administer such grant.

Trust Fund: The JAG statute, at 34 U.S.C. § 10158, requires that a state or unit of local government that elects to draw down JAG funds in advance must establish a trust fund in which to deposit amounts. The trust fund must be in an interest-bearing account, unless one of the exceptions in 2 C.F.R. § 200.305(b)(11) apply.

Goals and Objectives of This Funding Opportunity

Goal: Improve the administration of the criminal justice system.

- **Objective 1:** Provide units of local government with additional personnel, equipment, supplies, contractual support, training, technical assistance, and information systems.
- **Objective 2:** Assist units of local government with their criminal justice needs.

For a description of how awards under this NOFO will contribute to achieving these goals and objectives, see the Performance Reports section below.

Expected Outcomes

OJP expects recipients to submit deliverables and performance reports, as described below. Read the Application Resource Guide for more information. OJP will measure success by reviewing a recipient's submission of performance reports and data and the extent to which project implementation reflects progress toward the goals and objectives of this NOFO.

Deliverables

Recipients do not need to submit any deliverables other than the standard items in the Post-Award Requirements and Administration section.

Performance Reports

OJP requires recipients to submit regular performance reports that communicate progress toward achieving Program Goals and Objectives. Read information on performance reporting.

Award recipients will receive further guidance on post award reporting requirements.

4. APPLICATION CONTENTS AND FORMAT

Application Contents List

The table below lists the contents for your application. Refer to the DOJ Grant Application Submission Checklist for application instructions.

Application Item	Submission Type
Step 1: Grants.gov	
Application for Federal Assistance: SF-424	Online Form
Step 2: JustGrants	
Standard Applicant Information	Online Form
Proposal Abstract	Text Box
Data Requested With Application • Financial Management and System of Internal Controls Questionnaire (including Applicant Disclosure of High-Risk Status) • JAG Survey	Online Form
Proposal Narrative	Attachment
Budget	Attachment
Other Budget/Financial Attachments • Indirect Cost Rate Agreement (if applicable) • Consultant Rate (if applicable)	Attachment
Additional Application Components • Certifications and Assurances by the Chief Executive of the Applicant Government • BWC Policy Certification (if applicable) • Body Armor Mandatory Wear Certification (if applicable) • Extreme Risk Protection Order (ERPO) Certification (if applicable) • Prohibited Expenditure Waiver Request (if applicable) • Unmanned Aircraft System (UAS) Certification (if applicable) • Counter-UAS Certification (if applicable)	Attachment

Application Item	Submission Type
• Memorandum of Understanding (if applicable)	

Standard Applicant Information

Review and edit as needed the information imported from the SF-424 submitted in Grants.gov. Add ZIP codes for areas affected by the project.

Proposal Abstract

In JustGrants, enter a proposal abstract (limited to 2,000 characters) summarizing the proposed project. As abstracts for funded projects are public, do not include any personally identifying information (e.g., staff names). Examples of brief Proposal Abstracts are included below.

JAG Abstract Examples

- The city of [insert] will use JAG funds for overtime for increased patrols to bolster the security of at-risk religious institutions, such as houses of worship and religious schools.
- The county of [insert] will use JAG funds to purchase police cruisers and officer personal protected equipment for increased law enforcement operations.

Disparate JAG Abstract Example

- The disparate jurisdictions of [insert] and [insert] will use JAG funds for technology improvements and law enforcement equipment. Specifically, the county of [insert] will use JAG funds to replace its records management system, and the city of [insert] will use JAG funds to purchase ruggedized laptops for officers.

Data Requested With Application

Financial Management and System of Internal Controls Questionnaire (including Applicant Disclosure of High-Risk Status)

Review information on this questionnaire.

JAG Survey

Applicants will be required to respond to JAG specific survey questions as part of the JustGrants application. Please refer to the steps below to help guide you through initiating, completing, modifying, and obtaining the status of the survey in the JustGrants system:

1. To initiate the survey, click on the survey title to open.
2. When you have completed the survey, click the "Finish" button in the lower right corner of the screen. The system will direct you to a review screen displaying your survey responses.

3. To go back to the main application screen, go to the "Actions" menu in the top right corner of the screen and select "Close" to exit the survey review screen.
4. The survey you just completed will still display an "Open" status. To confirm the completed status of your survey, go back to the "Actions" menu and select "Refresh." The status of your completed survey will change to "Resolved—Completed."
5. To verify responses to a completed survey, click the survey title to reopen it and view your saved responses.
6. To change and/or update responses to a completed survey, click the "Reopen" option to update your saved responses.

Proposal Narrative

Format of the Proposal Narrative

Submit the narrative as an attachment in JustGrants.

Sections of the Proposal Narrative

The Proposal Narrative must include the three sections listed below.

1. Description of the Need: What critical issue or problem do you propose to address with this project? Please include:

- Identify the issues the unit(s) of local government intend(s) to address with JAG funds, to include gaps in the jurisdiction's needed resources for criminal justice purposes.

2. Project Design and Implementation: How will you implement project activities that meet the project goals and objectives? Please include the following:

- Describe how JAG funds will be coordinated with state and related justice funds.
- Provide description of the programs to be funded over the grant period, to include any subawards.

3. Capabilities and Competencies: What administrative and technical capacity and expertise do you bring to successfully complete this project? Please include:

- Describe the applicant's capacity to deliver the proposed project and meet the requirements of the award, including collecting and reporting the required performance measure data. Who will be responsible for this task, and how will the applicant collect the data? Refer to Program Description: Performance Reports for additional details on performance measures for this funding opportunity.

Project Evaluations: An applicant that proposes to use award funds to conduct project evaluations must follow the guidance on project evaluations.

Budget and Associated Documentation

Budget

Use the Budget Detail Separate Attachment (attach file in JustGrants) to submit the budget. Read information on budget preparation and JustGrants Application Submission Training.

- List each cost needed to implement the project under the appropriate cost category.
- Clearly name and describe each cost.
- Show the computation of each cost (e.g., cost per unit, number of units, and total cost).
- Enter narrative, as needed, to explain the cost calculations and connection to your project goals, objectives, and activities.
- Include only costs that are reasonable, allocable, and necessary to implement the project. They must be allowable under the funding statute and agency requirements.[1]

The following information specific to this funding opportunity will help you develop your project budget:

- In addition to the instructions above, Local JAG applicants must include in the budget worksheet the following:
- If using funds for administering the grant, provide clear designation for any cost line items that are JAG administrative costs within each budget category and project year. For example, in the line-item description or explained in the narrative section.
- For applications for disparate groups, the preference is for the applicant to include a single budget worksheet and narrative that lists each jurisdiction's proposed costs by category, labeled to distinguish the use between partner agencies. Alternatively, separate budget attachments for each partner of unit of local government are acceptable.
- Funding restrictions—JAG funds may not be used to supplant state or local funds but must be used to increase the amounts of such funds that would, in the absence of federal funds, be made available.

  Additional restrictions apply to certain costs or activities, to include but not limited to:

  - Administrative costs
  - Prohibited items per 34 U.S.C. § 10152, absent a waiver
  - UAS and C-UAS
  - Body Armor
  - Body Worn Cameras
  - ERPO activities
  - DNA Testing of Evidentiary Materials

[1] See 2 C.F.R. Part 200, Subpart E and the DOJ Grants Financial Guide. Read information on unallowable costs that apply to all funding opportunities.

Please refer to the JAG Frequently Asked Questions for more information.

Budget/Financial Attachments

- **Indirect Cost Rate Agreement (if applicable):** If the budget includes indirect costs calculated using a current, federally approved indirect cost rate, upload your indirect cost rate agreement. Read information about indirect costs.
- **Consultant Rate (if applicable):** Read information on limits to consultant rates and whether you need to request approval to exceed those limits.

Additional Application Components

Attach these in JustGrants:

- **Certifications and Assurances by the Chief Executive of the Applicant Government:** Found at: https://bja.ojp.gov/program/jag/certifications-assurances. This certification contains assurances that the governing body notification and public comment requirements, which are required under the JAG statute (at 34 U.S.C. § 10153(a)(2).
- **Body-Worn Camera (BWC) Policy Certification (if applicable)**: Only required if the direct recipient will be using JAG funds for a BWC project.
- **Body Armor Mandatory Wear Certification (if applicable)**: Only required if the direct recipient will be using JAG funds for body armor.
- Extreme Risk Protection Order (ERPO) Certification (if applicable): Only required if JAG funds will be used for an ERPO program.
- **Prohibited Expenditure Waiver Request (if applicable)**: Only required if a JAG applicant would like to request a pre-award waiver to purchase a specific prohibited expenditure request.
- **Unmanned Aircraft System (UAS) Certification (if applicable)**: Only required if a JAG application will include costs for UAS in the budget.
- **Counter-UAS Certification (if applicable)**: Only required if a JAG application will include costs for C-UAS in the budget.
- **Memorandum of Understanding (if applicable)**: Only required for disparate jurisdictions, as detailed in the JAG FAQs.

Refer to the JAG Frequently Asked Questions for more information on these attachments. If a required attachment is missing from an eligible JAG application, OJP will issue an award agreement, but funds may be withheld until it is provided.

Disclosures and Assurances

Read the disclosures and assurances and complete them in JustGrants:

- Disclosure of Lobbying Activities
- Disclosure of Duplication in Cost Items (if applicable)
- DOJ Certified Standard Assurances
- DOJ Certifications
- Applicant Disclosure and Justification—DOJ High-Risk Grantees (if applicable)

5. SUBMISSION REQUIREMENTS AND DEADLINES

The DOJ Grant Application Submission Checklist provides instructions for how to submit you application by the deadlines. Executive Order (E.O.) 12372 (Intergovernmental Review of Federal Programs) does apply to this funding opportunity: read the Application Resource Guide for details. Read OJP's policy for applicants to request late submission due to technical difficulties, severe weather, or natural or manmade disasters.

6. APPLICATION REVIEW INFORMATION

OJP will review applications to ensure the information presented is reasonable, understandable, measurable, achievable, and consistent with the goals of the funding opportunity. See the Application Resource Guide for information on the application review process for formula grants, including risk review, and the deciding official.

7. AWARD NOTICES

Read about the award notification process.

8. POST-AWARD REQUIREMENTS & ADMINISTRATION

Read the Application Resource Guide for more information about: standard award terms and conditions, administrative and national policy requirements, and post-award reporting requirements.

9. QUESTIONS?

NOFO Contact	Name: OJP Response Center Phone: 800-851-3420 or 202-353-5556 (TTY for hearing-impaired callers only) Email: OJP.ResponseCenter@usdoj.gov Hours: 9:00 a.m.–5:00 p.m. ET, Monday–Friday

Grants.gov Help Desk	Phone: 800-518-4726 Email: support@grants.gov Website: grants.gov/support Hours: 24 hours a day, 7 days a week (closed federal holidays)

JustGrants Help Desk	Phone: 833-872-5175 Email: JustGrants.Support@usdoj.gov Hours: 7:00 a.m.–9:00 p.m. ET, Monday–Friday and 9:00 a.m.–5:00 p.m. ET on Saturday, Sunday, and federal holidays.

2026 Oregon Local JAG Allocations

Only jurisdictions listed below in the state are eligible to receive FY 2026 JAG funding directly from BJA, with award amounts determined by the annual formula. Important notes:

1) Disparate jurisdictions are listed in shaded groups below, in alphabetic order by county. A single jurisdiction must serve as the fiscal agent on behalf of the group. BJA will only fund one award for the disparate group. Disparate jurisdictions are responsible for determining individual amounts within the Joint Allocation and for documenting allocations via a memorandum of understanding.

2) Jurisdictions eligible for a direct allocation (i.e., not part of a disparate group) are listed alphabetically below the shaded, disparate groupings.

For additional details on eligibility and disparate group requirements, refer to the JAG the Frequently Asked Questions here: https://bja.ojp.gov/program/jag/frequently-asked-questions. For additional details regarding the JAG formula and award calculation process, please refer to the JAG Technical report here: https://bjs.ojp.gov/library/publications/justice-assistance-grant-jag-program-2024.

JOSEPHINE COUNTY SHERIFF'S OFFICE

The Josephine County Sheriff's Office intends to use the JAG funds to address a gap in consistent geographically focused law enforcement presence and community engagement throughout the county. Josephine County can be broken into three areas, which are the North, the South and the Illinois Valley. Each of these areas have unique communities with their own needs for law enforcement.

From 2018 to 2021 the Sheriff's Office addressed these needs through a Resident Deputy Program. The program consisted of three deputies who were assigned to one of the three geographical areas, and they also resided in their assigned area. The expectation was that they would build relationships with the residents, schools and neighborhood groups. They would be more likely to know about the law enforcement issues that needed to be addressed. Unfortunately, due to staffing and funding constraints the program ended in late 2021. As a result, whichever deputy was available would be the person responding to calls for service in any given area. The staffing constraints also made it hard for deputies to attend community events.

In January 2026 the Josephine County Sheriff's Office was able to provide 24/7 patrols which had not been the case since 2012. Over the last year the Sheriff's Office priority has been to fill patrol deputy positions to provide the 24/7 coverage. As positions continue to be filled the office intends to bring back the Resident Deputy Program. Current staffing levels do not allow for full-time resident deputies, but the JAG funds could be used for overtime for dedicated personnel to attend community engagement activities, school events and community meetings without pulling from the regular patrol staffing.

The project would address the personnel resource gap and the community engagement gap. Without additional resources, patrol deputies responding to calls for service throughout the county have

1901 NE "F" St. • Grants Pass, OR 97526
General Business (541)474-5123 • Fax (541)474-5114
jocosheriff@josephinecounty.gov

limited capacity to participate in community events and proactive community engagement. Grant-funded overtime will provide a bridge to restore the Resident Deputy Program.

The Sheriff's Office will implement the project by using JAG funds to provide overtime for sworn deputies to conduct proactive community engagement and community-oriented policing activities in three designated geographic areas of the county: the North, South and Illinois Valley. The project will support the JAG Safe Communities emphasis by increasing the Sheriff's Office's ability to maintain a visible, proactive presence in communities and respond to public safety and livability concerns before they escalate.

During the project period, overtime may be used for participation in community events or meetings, school events, crime prevention activities and other activities that provide opportunities for deputies to interact directly with residents. The expectation is that the deputy's participation in the community engagement will help to identify community concerns such as property crime, drug activity, trespassing and other issues that affect public safety.

When appropriate, the Sheriff's Office will coordinate with other local, state and federal law enforcement agencies when there is criminal activity that requires a coordinated response. If other agencies coordinate with the Sheriff's Office, the JAG funds will only be used to cover the overtime costs of the Sheriff's Office personnel.

The Sheriff's Office has the administrative, operational, and technical capacity necessary to successfully implement the proposed project, manage JAG funds, and meet all applicable grant requirements. The agency has previously operated a successful Resident Deputy Program and therefore

jocosheriff@josephinecounty.gov

has direct experience implementing geographically focused community policing activities, establishing relationships with residents and community organizations, and assigning deputies to specific geographic areas of the county. The proposed project builds upon that established experience while using grant-funded overtime as an interim approach until staffing levels allow the full-time Resident Deputy Program to be restored.

The Sheriff's Office has established supervisory and administrative structures for managing personnel, scheduling overtime, monitoring expenditures, maintaining documentation, and overseeing grant-funded activities. Supervisors will be responsible for coordinating and approving deputy participation in eligible community engagement and public-safety activities and ensuring that overtime assignments are consistent with the approved project objectives. Administration personnel will be responsible for maintaining grant records, monitoring expenditures, collecting required performance information, coordinating with operational staff, and preparing and submitting required financial and performance reports. This existing administrative capacity provides the agency with an established process for grant management rather than requiring the development of new administrative systems for the project.

The grant administrator will compile and maintain the performance data in accordance with applicable JAG requirements and will use the information to prepare required performance reports. Financial records, payroll documentation, overtime records, activity reports, and other supporting documentation will be maintained to provide an auditable record connecting grant expenditures with approved project activities and outcomes.

JOSEPHINE COUNTY SHERIFF'S OFFICE

The Sheriff's Office has extensive experience with grant reporting and compliance and understands the importance of maintaining accurate, timely, and verifiable documentation. Administrative personnel will monitor reporting deadlines and applicable grant requirements throughout the award period and will coordinate with Sheriff's Office leadership and operational personnel to ensure required information is collected and submitted.

Budget Summary

Note: Any errors detected on this page should be fixed on the corresponding Budget Detail tab.

	Year 1		Year 2 (if needed)		Year 3 (if needed)		Year 4 (if needed)		Year 5 (if needed)		
Budget Category	Federal Request	Non-Federal Request	Federal Request	Non-Federal Request	Federal Request	Non-Federal Request	Federal Request	Non-Federal Request	Federal Request	Non-Federal Request	Total(s)
A. Personnel	$8,781	$0	$0	$0	$0	$0	$0	$0	$0	$0	$8,781
B. Fringe Benefits	$4,332	$0	$0	$0	$0	$0	$0	$0	$0	$0	$4,332
C. Travel	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
D. Equipment	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
E. Supplies	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
F. Construction	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
G. Subawards (Subgrants)	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
H. Procurement Contracts	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
I. Other	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
Total Direct Costs	$13,113	$0	$0	$0	$0	$0	$0	$0	$0	$0	$13,113
J. Indirect Costs	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0	$0
Total Project Costs	$13,113	$0	$0	$0	$0	$0	$0	$0	$0	$0	$13,113
Does this budget contain conference costs which is defined broadly to include meetings, retreats, seminars, symposia, and training activities? - Y/N										No	

Minutes August 4, 2026

Meeting to Order:

Brett Hopper leading meeting brought to order at 5:30pm as Chair Cammeron Camp is missing.

Members Not Present:

Cammeron Camp, Sean McGillivray

Members Present:

Brett Hopper, Lisa Javoric, Wolf Emonds, Lena Traeger, Ryan Marshall

Wolf Emonds – with one d

Lena Traeger – I am sorry I noticed I spelled Mikes last name wrong too.

Review, Modify, Accept minutes from last meeting:

Lena Traeger – I want to apologize they are in the long version I did not have a chance to condense them, so they are word for word. Usually, I do them twice.

Brett Hopper – I would recommend they are a little shorter, it's nice they are accurate

Brett Hopper – Discussions or modifications to minutes

Wolf Emonds – motion to accept the minutes

Lisa Javoric – Second to accept the minutes

Minutes passed unanimously.

Commissioner's Report:

Brett Hopper – I don't see any Commissioners present. Unless anyone has any comments, they were supposed to relay from the Commissioners we will move on.

Comments and Discussions from the Public:

Brett Hopper – Does anyone from the public have anything interesting, concerning?

I would say there has been no discussion from the public.

Board Old Business:

Illinois Valley Fuel Farm:

Brett Hopper - Does anyone have any information, we were hoping to have someone official from the county, does anybody know anything about the Illinois Fuel Farm that can be discussed?

Lena Traeger – When I made this, I think I forgot to put this on here the Managers report that was a complete accident I did not mean to do that I apologize for that.

Brett Hopper – Is there a manager here?

Lena Traeger – No

Brett Hopper – The Manager is not present or any of his representatives so we will skip that point too.

Brett Hopper - Back to the Illinois Valley Fuel Farm does anybody know if that is progressing on schedule, any changes?

Wolf Emonds – This is what I think has progressed, in terms of if you walk out on the dirt out there is not so much as a shovel of dirt turned.

Brett Hopper – So no visual changes there.

Ryan Marshall – Mike told me they were coming down here last Friday or Monday to walk the site sort of do a preliminary inspection on it to get the (runway?) started don't count me one for one on that he said they were coming out here with a contractor to get it started.

Brett Hopper – So it has been looked at?

Ryan Marshall – Yes

Brett Hopper – Great

Wolf Emonds – Maybe

Brett Hopper – Supposed to be looked at

Ryan Marshall – I didn't follow up with him if they did or not but that's what I was told.

Taxi Extension:

Lena Traeger – We did just get a letter

Brett Hopper – We did just get a letter; Um I don't know who did the letter go to? The General Airport population? There is a Taxiway extension happening in Grants Pass, the construction is expected to commence in late August. Taxiway Alpha 5 continuous closure, so Alpha for those of you that don't know is on the west side of the Airport where most things are located. Mid – Late September through mid-October runway 13/31 which is the runway in Grants Pass will have nightly closures from 10pm to 6am mid-late September to mid-October then they hope to open the taxiway extension as well as a runway 13 apron in late October or Spring of 2027 depending on weather impacts on construction. The Airport will remain open nightly for helicopters but not aircraft, airplanes I should say, I am not sure if that pertains to gyrocopters or any other stuff. There will be one daytime closure of the runway. It's good that we got an update on that I know from my planning purposes we were pushing for that.

Gentle man from public – How long will the runway be closed.

Brett Hopper – It sounds like basically in the Fall it's going to be closed and in previous conversations was roughly 20 times so I'm guessing that's 20 nights, but that's 10pm to 6am, it will be open during the daytime and it will be closed 1 day and that is for the actual connection process, which is a lot more reasonable than 20 days which was my concern. Does anybody have anything else to add that was the email that was sent this afternoon.

Wolf Emonds – I'm just curious on an operational level when you are taking your jet down there can you back taxi and turn around on the end or do you need that taxiway to go down there and have an apron?

Brett Hopper – The turning radius on the current largest jet at the airport is 60 feet and the runway is 75 feet wide, but it does have a bulb currently paved at the end like a cul-de-sac looking thing off to the left side, you can easily turn around at the end. The new construction process will essentially have a connecting taxiway to continue on like the existing taxiway used to be, is my understanding looking at the master plan drawings.

Cameras at both Airports:

Brett Hopper – Does anyone have any information on this? I broached the cameras with Michael and the Commissioners, my understanding is that they do plan on bringing cameras back to the airport, but there is some hiccups evidently with security, a cyber security worry.

Wolf Emonds – Do they want not detected on those cameras?

Brett Hopper – I do not know what that means, that was the reason given it was not up currently, but I did express the views that both VFR and IFR pilots use that especially in the foggy season and during the fire season to evaluate the runway, I emphasized that there were flight planning software that can now integrate those webcams at airports. It sounds like it percolating.

Lease Updates:

Brett Hopper – Does anyone have

Lena Traeger – We have not got our lease

Brett Hopper – I have also not got my private lease

Wolf Emonds – I was sent an unsigned copy of a 2016 lease with Larry Graves that expired 5 years from 2016.

Brett Hopper – So it was already expired.

Wolf Emonds – Yes twice, and I don't understand what the point of it was, but I can say and maybe some of you can say similar things If I was asked to resign that lease today I would have serious reservations about it because, it incorporates some airport rules that are not aligned with FAA regulations so that when it comes to you can't fly ultralights before 8am on certain days of the week, we have a sign posted no vehicles beyond this point but part 103 machines are considered vehicles so there is a lot of weirdness about that and I couldn't feel good about signing a lease that has non-compliance stuff in it.

Brett Hopper – Has anyone received a new active lease recently? My conversation with Commissioner Gary today, he understands it is a problem at both the airports, and they are working on it. Higherups in the County are aware that leases should flow, I understand that recently there has been a few lease issues that impeded some people from buying and selling hangars, they are aware of it being a problem, but there was not timeline given.

Ryan Marshall – Chief just got their preliminary copy of their lease yesterday. I have not had a chance to review it or sign it or give any feedback but it's in process.

Brett Hopper – So things are starting percolate perhaps?

Ryan Marshall – Yes

Brett Hopper – That's a good sign.

Brett Hopper – Anything else to add to leases? I know in talking to several people that including the board chair that we are encouraging County to publish the lease rates, meaning a generic rate for private and commercial leases should be published as well as the rules and regulations that go along with those leases, that will help transparency, and it sounded like from Commissioner Gary that it was a goal. Hopefully that will bring things together a little bit more.

Gentle man from public – It is apparent that Commissioner liaison is Gary now.

Brett Hopper – Correct.

Harold Hartman – Is that official now or is that just how it's happening?

Brett Hopper – It is official now. In talking with different Commissioners about that, they have always referred to him as that. He is actively supervising Michael and helping him through some issues. He was also present at the meetings that I have had with Michael.

Harold Hartman – You mean on your leases and stuff?

Brett Hopper – And other issues not related to leases he's been present there and been helpful in moving things forward, so that's a good thing.

IV Weather Station Update if any:

Brett Hopper – Does anybody know anything about the weather station in the Illinois Valley?

Wolf Emonds – Contrary to Michaels assessment that the weather station is remarkably accurate it is not and it is a crapshoot if it's going to turn on and report anything at all.

Ryan Marshall – It worked twice on the way in here today.

Wolf Emonds – Yah sometimes it does but typically in the morning it's like its batteries go dead or something. It works later in the day but not in the beginning.

Brett Hopper – The Super AWOS does have a battery pack

Wolf Emonds – Yah and it's super finicky when it's going to work and when it's not going to work. The wind direction does not seem to be too accurate and the altimeter setting is often off like 20-40 feet which is not that big of deal and there is a slope to this runway, I don't know if its reporting at one end and not the other so why would I tell my students we are going to click this thing up cuz we are testing the radio to see if sends and receives but don't believe what it says.

Brett Hopper – My impression based off the last meeting was they knew that the weather station had issues, one topic that was brought up was that there was a spare somewhere in Grants Pass does anyone know if that was located?

Ryan Marshall – I think Trenton said he had parts for it or parts from it, but I have not heard from him if he actually

Brett Hopper – So I would definitely leave that, or we could add that to a new business, but I don't know if we can go any farther without any official information.

Flight Check:

Brett Hopper – This refers to getting the obstacle departure procedure for instruments and the GPS approach into Grants Pass reactivated which has been deactivated due to the lengthening of the runway has anybody heard any updates from the county on when that is happening?

Lena Traeger – No but I would really like to get it done before winter.

Brett Hopper – I would definitely agree with that.

Ryan Marshall – We had the FAA jet fly over a couple weeks ago, I saw it fly by other than that I don't know.

Lena Traeger – They usually do a low pass like a really low one and its pretty loud.

Ryan Marshall – Right they went by a few weeks ago

Brett Hopper – But we have not gotten any communication. I know there was some concern because it was scheduled to be done when the weather machine was out of service or potentially out of service.

Wolf Emonds – What happened to that it was out for a long time.

Brett Hopper – That would be under new business. But as far as the flight goes, do you know if the weather machine was working when the flight check happened?

Ryan Marshall – I don't know

Brett Hopper – That was a concern of mine because that's a component required for that approach but make sure you bring up the weather machine on new business.

Mowing at Illinois Valley:

Brett Hopper – Has the mowing been done?

Wolf Emonds – It has been done with some teamwork, if you remember a year ago Trenton was all over me about crushing the sewer pipe out here and not to use the road but he put the blades down and pushed all the rocks in my way with the tractor and mowed that area. It was also a bit humorous because they are always chomping at me about not filing notams arond here but there were no notams out for any of the mowing of the runway.

Brett Hopper – At least the mowing got done.

Board New Business:

Lisa Javoric – I did notice on the FAA supplemental chart it does not reflect the runway extension number

Brett Hopper – It doesn't even reflect the old taxiway

Lisa Javoric – Who is responsible for updating that is it the Airport Manager?

Brett Hopper – I checked with NATO and I was unable to instigate any changes there, so the Airport Manager would be responsible for and the only authorized person to do that.

Lisa Javoric – Because aircraft coming in would be looking to see the length of the runway

Brett Hopper – Currently there is a notam notifying the change in the runway length, it would be much better to have that in the supplement, because that supplement also triggers the data bases. As an example, we had a chartered flight that we generated for an inbound passenger and they were unwilling to use the notam so they landed in Medford even though they said that they could have landed in Grants Pass with the new runway length. Their ops spec didn't approve that they could only shorten through their op spec so having that updated would help and having that fairly large investment more useable.

Ryan Marshall – I believe they need to update the sign on the 31 end of the runway in the run up area. Mike knows about it I have told him. It has 4000 feet of runway left remaining on the little signpost.

Brett Hopper – So I hear a discussion about updating the data is there a formal motion to recommend or notify the manager?

Lisa Javoric – I make a formal motion

Motion was seconded but I could not tell who

Brett Hopper – So we can have that official discussion, I understand we want to update the charted data, we would motion to update the charted data, and to update the signs at the end of the runway, is there anything else to amend to that motion?

Ryan Marshall – (I could not hear what was said)

Wolf Emonds – Does that airport have up to date 1000 ft countdown markers

Brett Hopper – It does not have runway remaining signs is that what you were referencing? So basically, as you are rolling down the runway it's counting down from 4,3,2,1then your off the dirt. It does not have those. Are you amending the motion to include those?

Wolf Emonds – I think we should include those, not that any of my stuff cares really but bigger stuff might care.

Brett Hopper – So there is discussion on adding that is there an amendment to that official then what we are amending?

Wolf Emonds – Yes

Brett Hopper – Runway rename and signage

Ryan Marshall – Does the supplement right now show Alpha and Bravo on the taxiway as

Brett Hopper – It does not show Bravo.

Ryan Marshall – Just Alpha

Brett Hopper – Which has caused some complications as such recently there was a notam to close a portion of Bravo, I know the spirit behind that when Trenton issued that was good in the fact he was notaming that closed for firefighting helicopters to be on it, however the way the notam was written was that section was closed, meaning the helicopter guys landing on that section were a little worried about the liability, it should have said closed except for firefighting activity. But also, where is Bravo there is no signage for Bravo, and there is no charting for Bravo which makes the notam if that is the official thing for someone who does not have local knowledge, its deficient.

Ryan Marshall – Yes, well we should suggest that as well if they are going update that as well if they are going to update the chart, we should add Alpha and Bravo

Brett Hopper – Signage and charting for Bravo.

Ryan Marshall – And Alpha, I don't see Alpha on here either.

Brett Hopper – Signage and charting

Ryan Marshall – I have had that question asked a couple of times by customers flying in especially when they were closing down.

Brett Hopper – Yes

Ryan Marshall – The alternate taxi ways for awhile

Brett Hopper – Yes, its non-standard, and it's free to do it just requires a simple form to update, so that is a great suggestion. Any other things in this motion to update signage, data type stuff? Nope, so update supplemental charting, signage, so the signage for Alpha, Bravo, the charting for Alpha, Bravo, and the remaining runway signage recommended. All in favor of those?

Brett Hopper – That's unanimous. Great, that was a good one.

Wolf Emonds – Let's talk about the AWOS Machine

Brett Hopper – AWOS machine, who knows anything about the AWOS machine?

Ryan Marshall – Grants Pass AWOS machine?

Lena Traeger – Mhm

Brett Hopper – My understanding that it went out of service towards the beginning of the month and it was out till the 20 something or other. Originally it was diagnosed that there was a com antenna failure, I actually volunteered a free com antenna in hopes they would figure out it was not a com antenna because it was broadcasting weather unavailable. It took about two to three weeks for that process to come in and change the antenna where they figured out that it was actually had to do with the resolver board conversion, so its old school, so I don't know if its converting to RF232(?) or what but that conversion board is not allowing the data to flow through. It is back up and running now, it is transmitted both on the internet and over the radio, where before it was doing neither.

Lisa Javoric – Are they still doing the monthly checks on that?

Brett Hopper – I do not know, but we could motion that they keep doing monthly checks.

Lena Traeger – I believe Cherie does. I have no idea

Lisa Javoric – It should be Cherie and Trenton, one person does inside and one person does outside.

Lena Traeger – I have no, I just remember her coming out, it's been a while, I have not been down there, I know she was doing them.

Brett Hopper – There is discussion about monthly checks, is it something we should just ask him?

Lisa Javoric – Just an ask

Brett Hopper – So not a motion?

Lisa Javoric – No

Brett Hopper – Ask are monthly checks

Lisa Javoric – Because there are checks inside the unit itself and there are checks outside.

Lena Traeger – I know she's done the ones inside.

Brett Hopper – Any other board new business?

Compass Rose: - Lisa Javoric

Brett Hopper – Compass Rose, what kind of discussion would you like to have on the compass rose?

Lisa Javoric - I would like to know is it calibrated and certified to be used for aircraft calibration? When Steve Dobbs was here and he was the Airport Manager it was discussed that it was for novelty use only, The EAA painted it and made it all pretty, I just want to confirm that it is still only for novelty use.

Brett Hopper – My understanding is that what you said it is novelty it's just there for good use, people doing actual compass swings, I think that Baker spoke at that time that he has a compass that he has that he uses for that purpose. There is nothing certified charted and certified charted, and a certified charted compass rose would be listed again in your chart supplement. Is that something that you would like me to ask?

Lisa Javoric – Yep

Brett Hopper – Ok that was a good one

Lisa Javoric – That's all that I have.

Weather Reporting Machines – Wolf Emonds

Wolf Emonds – I would like to have a discussion about Weather Reporting Machines because I really don't know about them with regard to, if I call flight services and I'm doing a VFR flight for a student getting ready for a student solo cross country for instance. They don't have any weather that they use here so they'll give me Brookings, Crescent City, Medford, and Klamath Falls which are not very useful, so many times its VFR flight not recommended even though it's totally (? Couldn't understand what was said)

Brett Hopper – Based on lack of information

Wolf Emonds – Yah, and they know that and they apologize for it, what would it take to have a machine they can use so we can get a report other than VFR flight not recommended?

Brett Hopper – We went through that very process in Grants Pass, so the weather machine out here as I understand it is what's known as a Super Unicom that's basically a private company that does advisory services, which is why its marketed as a Unicom service, if you were to call a person and say ABC Unicom you are talking to someone on the ground, to get it certified a Super AWOS does not qualify per the NOAA standards, so in order to get that report into flight service, flight planning, it would require a new unit, we went through that process between Alex Grossi and Larry Graves I believe they were around $80,000, I see one head nod.

Wolf Emonds – So its real dollars

Brett Hopper – Its money, and the reason for that is when NOAA allocated the money to Josephine County way back before in the 90's that allocation happened and most AWOS's like Brookings like you were saying got put in the 2000's because of that allocation. Josephine County and the Airport Board at that time turned that money down, which means we did not qualify for that money until it recycles.

Wolf Emonds – The Illinois Valley Airport is often a refuge, people are planning to go to Crescent City, or Brookings, or ACP(?), any of those within that reasonable range, they can't land there for some reason usually fog and so they'll end up over here. I've been stuck in pretty sketchy situations over there myself, it be nice if I had an actual weather machine to count on. So, I guess what I'm saying is that might not be the need for reliable weather for Wolf and the handful of other operators here, but in terms of the overall aviating world that is flying in the northwest coastal mountainous terrain possibly at night I think they would feel likely more

Brett Hopper – Air ambulance uses it, fire services use it, this is good discussion I like it

Wolf Emonds – One more layer of that is the towers that your stratus picks up, to report ADSB traffic and next (?) weather and we don't have that, so I have to get really high before it sees tower(?)

Brett Hopper – 5 or 6 thousand feet at least

Wolf Emonds – Yah, so what's it take to get one of those maybe stick one of those on 8 dollar or something maybe service Grants Pass and Illinois Valley.

Brett Hopper – That's a separate process putting in additional ADSB towers would be more difficult than getting an official AWOS. It has to do with the number of terminals that overlap with each other based on how the frequency is allocated. I would agree with you because I would like to have that below also, depending on the type of ADSB you are using you can still get the traffic lower, that's an individual aircraft thing so I know that some of those drop out where if you are able to receive the traffic via the tower it combines both styles, but it would be hard from a Countys perspective to pull off the ADSB, those are both Federal very similar to trying to pull off getting a radar. It would be nice. Any other discussion along the AWOS potentially being integrated into the NOAA system in Illinois Valley. Is this just a discussion or do you want a motion to maybe look into the possibility of it.

Wolf Emonds – Yah a legit weather machine

Brett Hopper – So you are motioning to looking into getting an AWOS that would interface with NOAA?

Wolf Emonds – Yah

Brett Hopper – Do I hear a second to that motion?

Lisa Javoric – I'll second

Brett Hopper – So now the official discussion happens so are we going to be asking the County to look into that? What would it take, price, timeline.

Wolf Emonds – Yah what is involved so maybe we could work towards it, it's always easier to look for money if you know what you are looking for.

Brett Hopper – So the official motion would be to ask the County what is involved in getting an official AWOS system that will interface with NOAA so that we can work towards it. Anybody else want to add anything else to that?

Ryan Marshall – Put in there both Grants Pass and Illinois Valley or as needed in Grants Pass

Brett Hopper – The Grants Pass AWOS after it's been prepared meets that criteria and is reporting to NOAA. You can pull Grants Pass data through ADSB if you are high enough, and you can get Grants Pass data through an actual weather briefing, where you cannot do that for Illinois Valley. That's finalized then everyone voted unanimous. That was a good one. Any other topics.

Brett Hopper – I know discussion with Cameron, and I know there has been discussion, but as chair I can't motion but I would entertain comments on perhaps begin reiterating that leases should be finished soon and rates and requirements should be published for private and commercial leases.

Lena Traeger – I make a motion that leases should be finished soon for business and private and that it should be published.

Wolf Emonds – I second

Brett Hopper – Can that include rates and requirements?

Lena Traeger – Yes please, to include rates and requirements.

Brett Hopper – So there is a second any further discussion on the topic?

Ryan Marshall – Rates as in new rates, rates meaning what they are paying now, how specific are you looking for?

Brett Hopper – My idea would be that there would be a published rate, so talking with a loan officer this last week to propose a project they are wanting to know the cost. There is no number that I can pull up and yes I am building a private hangar or a commercial facility that it will be X dollars per square foot. So having that rate going but it also improves transparency on that's what it is so now if I am given a rate higher than that proposed rate I can say why and there should be a reason for it. It doesn't mean that you can't do special one off stuff, so if somebody wants to put in something that's unusual then I don't know what that might be but for generic personal hangar or a generic commercial facility those should on, it doesn't mean that existing stuff needs to be, but anything new would have this nice baseline that people can plan on and have equality.

Ryan Marshall – So you are just looking for new leases moving forward the rate to be published?

Brett Hopper – Yes

Wolf Emonds – Making recommendations about leases right, one thing that I am hard up against is who's responsible for fixing my door? And that document that I handed you doesn't say that right, it doesn't say that the County is responsible for maintaining their property to a useable standard, a safety standard or to any standard whatsoever. It also doesn't say that tenant must do it, so that puts us at a stalemate, I think that they ought to fix their door but there is no document that says they shall or optional.

Ryan Marshall– That sounds like a conversation with you and Mike when you renew your lease since it's what 8 years expired.

Brett Hopper – But I would say that having that clear standard that's given to everyone, put everyone on the same playing field. So basically, your saying is that it's not clear enough who does it, so having it documented would be clear would be helpful.

Wolf Emonds – Yah, recommend that future leases have things spelled out, like who's responsible for the light bulbs, or the upkeep. As it stands right now, I've been forbidden to do any repair, construction, excavation, lawn mowing anything.

Brett Hopper – Sure

Wolf Emonds – So that leaves me in a situation where I can't fix the leaking roof or the falling off door, or any such thing. So, I can't do it and they won't do it so where does that leave us?

Brett Hopper – That's a tricky one I don't have the answer to it, but what I am pushing for is to pull forward out of that for any new lease owners that's what I am trying to

do. So, the motion would be that we are pushing for leases to be produced soon with published rates and requirements for tenants and County.

Ryan Marshall –I would amend that to publish new County rates I don't think it's reasonable for the County to go back and try to figure out a bunch of different rates from a bunch of different tenants if it's going to change.

Lena Traeger – What if someone buys an older hangar?

Ryan Marshall – They would get a new lease

Brett Hopper – That's the problem currently when you buy a hangar you take the old persons lease and that has caused problems. If we have a process to quickly get a new lease when you buy a new hangar you are starting fresh. Otherwise, we will be like the hangar that I recently purchased was produced in the 80's, well that's a really cheap rate I would love to keep it but it's not really fair for me to keep it, also fire stuff, insurance all that stuff changes so overtime you update.

Wolf Emonds – In that lease from 10 years ago it makes note of the tennant must be compliant with Airports rules, but the Airports rules are not in compliance with FAA rules.

Brett Hopper – It sounds like another reason to get leases updated. Anything else to add to that? Ok all in favor, unanimous also great. Any other topics?

Comment from public

Harold Hartman – Just a question for all of the board members, because somebody might know this. Why is nobody here from the department?

Brett Hopper – I do not know why

Harold Hartman – Have you had any conversation with them as a chair member?

Brett Hopper – I was given this seat today, and I asked Gary today and he had a conflict of schedule.

Harold Hartman – Gary who?

Brett Hopper – Commissioner Gary Richardson, and that is the one day that I had, he is the Airport liaison, he had to attend an educational board meeting, so that is the explanation I was given.

Harold Hartman – Did he have an explanation why no department people are here?

Brett Hopper – It's frustrating as a board member to not have current or accurate information.

Harold Hartman – It's frustrating as the public that's here, do they not care they have enough people to assign someone to come to the meeting, they might not be able to answer all of our questions.

Brett Hopper – It is my understanding that their job description actually includes attending board meetings.

Harold Hartman – Really, that's interesting.

Brett Hopper – Yes, but I am not their employer so I can't enforce that, I am simply providing advisory services.

Harold Hartman – I wouldn't expect any of you too, that's the Managers job.

Brett Hopper – I agree

Harold Hartman – I am just (? stunned) I go to meetings all over the state and other states I have never seen this. There could be something, there could be an explanation, but so far, we don't have one.

Brett Hopper – I would entertain motions on recommending that they attend the meetings. I know that those conversations have been had recently that they should be attending, but like I said I know it is in their job descriptions as far as County staff. I don't know what more to do other than that, all I can do is say they should and ask them to do so.

Harold Hartman – I appreciate that honesty, it is really odd.

Brett Hopper – Since I have been appointed to the board, I have made an effort to take off time to attend all these meetings which has included walking out of the lower rogue canyon to make it to these meetings and flying cross country overnight to make it to these meetings. As a board member it is important to me to provide technical knowledge, especially now to the administration that I think needs suggestions.

Brett Hopper – I can't answer your question as to why they have chosen not to attend

Lena Traeger – I had major surgery and showed up online the very next day, I could barely even get out of bed.

Brett Hopper – I would say that I have received no communications, in the past commissioners and board members have requested online links to attend and there was no request for that this time.

Harold Hartman – Well I was just making a general comment, I appreciate everyone that is here today, in public and on the board. It is just surprising that any management wouldn't at least say why they are not here. I don't understand. I suppose the next choice is Gary. I understand him not being here, but for nobody in the department to come, I understand it's a very small department, but still it's almost, it's embarrassing that the County doesn't run their departments better. I don't understand. I've never actually seen this happen, who knows what's going to happen I don't know. We lose Gary in January.

Brett Hopper – Yah

Harold Hartman – If nobody else is interested than, it just isn't right. I appreciate all of you coming.

Ryan Marshall – Do you want to put this down as another ask from Mike? Ask why someone wasn't here, then if it happens again, we can just make a full motion on that at the next meeting.

Brett Hopper – So it's an ask for explanation on missed meetings.

Ryan Marshall – Correct, if it happens again, we can make a motion on that at the next meeting and talk about it.

New Topic from Grants Pass

Brett Hopper – There was a topic that was broached with me in Grants Pass I don't know if anybody has information on. The company that I work for is on Flaming Rd., which is on the east side of the Grants Pass Airport, recently I understand there was a bit of a kerfuffle between one of the Airport neighbors that lives at the end of Flaming and the Airport Manager. Does anybody know of any details or stuff on that? The story that I heard was a fence was not authorized to be put on his private property, and he put a through the gate fence on to that property, which was not agreed to by the tenant and the culverting that was put in was not up to County standards, and so the original resolution was that he was going to charge the County for access to his property to use that gate. The County decided to not use that option and instead they have installed a second gate just a few feet to the south of that gate to be off of his property. My concern one is the Airport being good neighbors to the surrounding community, the owner of that property had originally thought that my business might be involved with that somehow because we were hoping to do some construction, which we were not, but he was not looking at the Airport in a favorable

light because of it but it also brings up topics about the grants that were given from homeland security for that fence, the County rules about putting culverts and access to roads should probably be done properly, and proper surveys done to support those types of efforts. I can't really make a motion about that but I think it should be commented in a public place like this, I really think it's important for the leaders of out Airport to comply with local and federal rules for things of that nature but to be good stewards of Airport money, because it seemed a bit wasteful, kind of falling under the category of some other things that I have noticed going on.

Wolf Emonds – is there any kind of accounting towards how much this particular employee cost County when they do stuff like that? Those things start adding up and the dollar starts to get really high.

Brett Hopper – I do that with my employees but I'm not employing any County employees. I just thought that that should be brought to a public meeting.

Lisa Javoric – Why would the Airport Manager not know that he is putting a fence on private property, and not research that it needs to be on County property?

Brett Hopper – I don't know, It falls under the same category as abruptly a year ago along that same fence line on the east side there was Air Ambulance that hit a deer and it was determined that the flow gate was pulled out of the fence system, so basically there was a 40foot gap in the creek that flows through, that fencing is still missing, it was just determined it would be removed without impute from the board or the community on if that's a good idea. This last month I know my flight department has had some issues with animals on the runway, like I said the Air Ambulance people had talked to them about, like the airport board had mentioned a wildlife mitigation plan. I just have not seen any action to increase safety or find solutions. I know that previous Airport Managers have put in a dangling gate, but again that has been removed, so I think it warrants bringing up again because we have motioned that they should be looking into that, but we have not got any communication back about it.

Lisa Javoric – Can we request a motion to provide an update on wildlife mitigation?

Brett Hopper – I would definitely entertain a motion to get an update on the fencing system or wildlife mitigation processes.

Lisa Javoric – I make a motion to have the Airport Manager provide an update on wildlife mitigation and fencing.

Wolf Emonds – I'll second

Brett Hopper – We have a second, is there any further discussion? There is the missing segment of fencing, I know that there is also 2 damaged sections along that route that we have noticed deer hoping over because a tree has crushed the fence down making it low enough for that to happen.

Ryan Marshall – Is that on Flaming itself?

Brett Hopper – It's behind it

Ryan Marshall – Up against the abandoned paradise property

Brett Hopper – The paradise property, but this last year they have made an access corridor with bulldozers so I know that was one thing they said that access was difficult down there but access corridor has been bulldozed and is drivable especially now because it is rock hard, it's not mushy at all. The motion has been seconded is there anything else?

Lena Traeger – Can you tell me what it is again I didn't get it all down.

Brett Hopper – The motion is to have an update on wildlife mitigation and fencing repair and missing segments. Has anybody checked the perimeter or fencing out here at Illinois Valley, is there any issues with fencing out here?

Wolf Emonds – There are from time to time we get people messing with the fence on the other side and riding their bicycles across the runway and out the front gate.

Brett Hopper – Is there something that the County should be fixing right now though?

Wolf Emonds – I don't know I sometimes go out there but things got so unfriendly with using the road overhear and stuff, that like to go over there, like we used to cross the runway and go out that fence over there but now it's like you're not allowed to go near the runway blah blah blah so.

Brett Hopper – But generically a wildlife mitigation program and making sure the fence perimeter is intact would be universal I would think.

Lena Traeger – So for both Airports?

Brett Hopper – I would amend it to include both airports.

Lena Traeger – I make a motion to amend it to both airports.

Brett Hopper – Great, anything else to add to that? All in favor of that motion then it's unanimous.

Power Company Contract

Wolf Emonds – Can I have a discussion about the contract for this power company out here that's storing, they have so much equipment and Cranes and power polls and how much money is involved and where is that money going and what can we spend it on?

Brett Hopper – I believe that was discussed at a meeting you were not here for, but that money is coming and it goes directly to Illinois Valley Airport it is not shared with the Airports. That's good for Illinois Valley if that's true.

Lisa Javoric – I believe so

Brett Hopper – Is that what was said?

Lisa Javoric - Yes

Wolf Emonds – (I could not understand what was said it was muffled)

Brett Hopper – They did say that the contract with that was ending soon. I don't know how long that money will continue to come in.

Lena Traeger – It was pretty significant the amount of money

Brett Hopper – I don't remember the amount to share but I remember it was discussed. That's a good discussion to bring up with that discussion, it could perhaps be added to board old business to be included when someone from the County attends.

New Comment:

Harold Hartman – As you all know, you all came in here through the gate I believe, and I hope you all still have your axils because those holes out there one especially can take an axil out if you hit it too hard. The way this road out here is with the traffic you don't hesitate to get off the road because somebody is going to eat up your car, so if you take it too fast, you're going to lose a tire or you're going to lose something. I had a guarantee I call it that I'm sure he might call it something different, but we had our work week here doing lots of different things, and the Manager and Gary the Commissioner came out, and I caught them at the gate as they were leaving. I gave the Manager some information that he had asked me to provide on another topic, and I said, "do you want to get out of your car and come out and look at this hole?" :He said no I don't need to", "I said

oh ok, are you going to fix it?" I mean I think they have a pretty good relationship with some paving companies that they have spent millions of dollars on, and that I know personally would come out in a heartbeat and look at that and may even fix it for free, that's another issue the cost. But for cost for some car that stops because of that hole and gets rearended that cost is going to be in the millions.

Ryan Marshall – Where exactly is it? I flew in I don't know.

Harrold Hartman – Oh I'm sorry, yah that's the only way to get around it. It's right at the entrance.

Ryan Marshall – How far off the highway?

Harold Hartman – 20 feet 25 feet

Ryan Marshall – You have to figure out how much the state has for their easement through there because it could be a State or a County problem.

Harold Hartman – That's a possibility, but then the answer for that is Mike calls them up and says (?)

Ryan Marshall – I'm not disagreeing with you

Harold Hartman – That's an easy remedy but he assured me he would they would look into it.

Brett Hopper – How long ago was that?

Gentleman from public – 45 Days ago

Harold Hartman – 45 Days ago

Brett Hopper – Enough time to act

Harold Hartman – 2 days is enough time to act, you call up the paving companies, it would not take much.

Brett Hopper – Well is there any discussions or motions from the board to make a recommendation on that so they can get some assurance on that

Lena Traeger – I make a recommendation that we get that looked into, and to get that fixed.

Brett Hopper – A recommendation not a motion

Lena Traeger – I make a motion that we look into the holes, what it is going to take to get it fixed and fix it.

Brett Hopper – We does that mean the board

Lena Traeger – County

Brett Hopper – So you are motioning that the County looks into fixing the potholes that could pose a safety risk exiting the highway

Lena Traeger – And to look at why it wasn't already taken care of, how long has it been there?

Harold Hartman – Years

Brett Hopper – But there was a direct conversation that happened 45 days ago. Is there a second to that motion?

Lisa Javoric – I'll second

Brett Hopper – Any further discussion?

Wolf Emonds – Yah, to add we also have a mess of asphalt out here where roots are pushing up the access rd., there is a substantial speed bump out there, so if there is paving done, they ought to do it all.

Harold Hartman – That one isn't painted yellow, so you don't know you are going to hit it if you are not familiar with it.

Brett Hopper – There has been an amendment to the motion to include root pushup on access rd.

Lena Traeger – I can tell you from experience today it is not pleasant when it is hit.

Brett Hopper – This is why we have these board meetings we have good impute from the public, we have a motion that was made so that way the Commissioners can make sure the Management is held accountable for getting things done, because it does seem that those types of things fall under general upkeep and management. These are good topics so thank you for bringing that up.

Harold Hartman – And just as a side comment if it is an issue of money, then I think you need an accounting of where all this rent money is going to, and what we pay them.

Brett Hopper – That's a separate topic, if they say they can't just fix potholes because of finances then we will go that route. Any other topics or comments?

Wolf Emonds – Did we vote on that?

Brett Hopper – Oh yes, let's vote to approve that its unanimous. Any other comments?

Chains off North Parking

Wolf Emonds – In the famous meeting that was approximately a year ago here, there was a big war that went on. Eventually the brush was removed but it wasn't removed by Mike, and there was some fall out because of that, but one of the other things that was agreed that was going to happen was that they were going to take the chains off the oddball parking in the north parking ramp where one airplane blocks the road, and so the significance which was to unbolt the chains and take them away

Brett Hopper – I remember that

Wolf Emonds – Somebody would tie down to any of the other parking's that are down there, those chains are still in place, and it has never been done.

Lena Traeger – The chains are where?

Brett Hopper – So in the official parking zone there is one of the parking spots that needs chains removed.

Wolf Emonds – It blocks the entirety of the automotive access

Brett Hopper – I think that was agreed upon so would that be a motion to do it again or would this be a reminder with a thing that says why hasn't this been done and can you give us a timeline on when it will be.

Lena Traeger – I would recommend a reminder

Ryan Marshall – I would agree with that just a reminder

Brett Hopper – Reminder ok so chain removal. Great that's a good one. I had assumed it had been done, thanks for letting us know. Are there any topics related to either of the airports? No, so that completes this section let's move on to adjournment.

Adjournment:

Brett Hopper – The first thing there is to establish the next meeting time, traditionally we have had the first Tuesday of every other month, I will comment that if that if Commissioner Gary who has been overseeing Michael is not able to make those meetings because of his education board stuff so that would be Tuesday October 6th, I believe does that sound right?

Lisa Javoric – Mhm

Brett Hopper – That would be the last meeting Gary could attend, because then I think he moves out of his thing.

Lena Traeger – Do we want to move that to the second week?

Brett Hopper – We could move it to the second week, or we could move it to another day, it's just a proposal but I am open to comments to carry on with tradition or not.

Lena Traeger _ I would personally like to have Gary at our meetings, I really would.

Wolf Emonds – Not only that but we have got to have somebody else when Gary is gone.

Brett Hopper – Well the new person probably would not already be on the education board

Lena Traeger – Was that something he was already on?

Wolf Emonds – Is he leaving in December?

Lena Traeger – No he leaves in January, so he would be able to come to the December meeting he just would not be able to do much.

Wolf Emonds – Yah, so what I mean is we will most likely continue to have meetings.

Lena Traeger – Let's do it the day after.

Brett Hopper – Yes and we would want to continue to have point 3 which is a commissioner's report.

Hartold Hartman – And that one is at Grants Pass

Lena Traeger – Yes

Brett Hopper – Based off of tradition yes but, I am listening to if we carry on with that tradition or if we move it to another day

Ryan Marshall – Was it a Tuesday scheduling problem?

Brett Hopper – First Tuesday of every other month, is the education meeting which basically is the same way we are set up.

Wolf Emonds – So maybe we should move it to Wednesday

Lisa Javoric – I make a motion that we move it to the first Wednesday for the next two meetings and then move it back to the first Tuesday.

Brett Hopper – Well we can only establish the next so you would have to bring it back up at the second meeting. So, for the next meeting would be Wednesday the 7th so that's a motion, does anybody second it?

Lena Traeger – I second it

Brett Hopper – It doesn't mean we agree on it, but we can have a discussion. The 7th which is the first Wednesday in October, any comments, questions, or better ideas?

Wolf Emonds – I think we should do that so he can join us.

Brett Hopper – Ok, traditionally it has been at 5:30

Lena Traeger – Yep

Brett Hopper – I see some head nods here, so with that we will then vote. Who is in favor of October7th at 5:30 for the next meeting in Grants Pass. Is the Grants Pass meeting area coordinated via the County?

Lena Traeger – No me

Brett Hopper – Through the FBO

Lena Traeger – The FBO

Brett Hopper – Can we coordinate that with you

Lena Traeger – Yes sir

Brett Hopper – Is it approved

Lena Traeger – It is approved.

Brett Hopper – Great, we now adjourn the meeting at 40 past the hour.

Animal Shelter Advisory Committee Public Meeting	
Date: August 6th 2026	**Time**: 4:00 PM – 5:00 PM
Location: Online Meeting	
Address: Teams	

MINUTES

Meeting called to order at 4:10pm

- **List of Attendees:** Darrel, Debbie, Laura, Gabby, Lynda, Janet
- **Not in Attendance:** Nancy
- **Quorum**: Yes

- **Approval of Minutes**: Approved
- **Old Business: N/A**
- **New Business:**
  - **Member Brief-out:**
    - Darrel- Asked about the new Vet Office on Williams Hwy. What we know at this point is… They've been open for a few months now. They're just not doing full surgery yet, but they have some limited surgery options, which is great. We don't have a public price list at this time.
    - No other members had anything to report.
  - **Budget Review:** Report sent to members but there were no questions during meeting
  - **Shelter Update:**

    The Shelter has been busy as usual. Dogs have been doubled up at times to accommodate numbers.

    Summer heat/heat wave has been an issue. Staff have had to adjust daily rotation schedule, so animals aren't in heat too long.
    - New Facility Changes:
      - Added a new gravel parking lot that expands the small existing parking lot.
      - We Swapped our food room and cat intake room. This was Long overdue and makes better use of space and provides a safer environment for staff and animals.
      - New Carport over the asphalt. This will help with heat and rain
    - Future Facility Updates:

    Medical Intake Building — We hope to get this project off the ground soon. This new facility will allow us to provide more services in-house while creating a safer environment for everyone. We are working closely with our Facilities team, Commissioners, and architecture group to move the project forward. Along the way, we have had to revamp and fine-tune the plans to ensure they work effectively for our needs.

Animal Shelter Advisory Committee Public Meeting	
Date: August 6th 2026	**Time**: 4:00 PM – 5:00 PM
Location: Online Meeting	
Address: Teams	

The meeting was adjourned at: 4:35 Pm Next Meeting date/time: October 1st, 2026, at 4:00 PM
