

**BEFORE THE BOARD OF COUNTY COMMISSIONERS FOR JOSEPHINE COUNTY
STATE OF OREGON**

In the Matter of Supporting Josephine County)
and City of Cave Junction Applications for)
Water and Sewer Infrastructure Extension) Resolution No. 2026-032
Funds)

WHEREAS, the State of Oregon is accepting applications for grants from the Industrial Site Loan Fund (ISLF) and the Regional Infrastructure Fund (RIF); and

WHEREAS, Josephine County desires to participate in this grant program to the greatest extent possible as a means of providing necessary improvements; and

WHEREAS, the Board of Josephine County Commissioners have identified the extension of water and sewer lines outside the City of Cave Junction as a high-priority need; and

WHEREAS, project details include extending water and sewer lines to the unincorporated community of Kerby, approximately 3 miles north of Cave Junction, and to the Illinois Valley Airport, approximately 3 miles south of Cave Junction; now, therefore

IT IS HEREBY RESOLVED that the Board of County Commissioners for Josephine County demonstrates its support for the County's submittal of its application to receive grant funds from the ISLF.

IT IS FURTHER RESOLVED that Josephine County hereby pledges its full faith and credit in support of the County's grant application.

IT IS FURTHER RESOLVED that Josephine County is a committed partner of the City of Cave Junction in this project, and the County fully supports the City's application for a grant from the RIF for the same project.

IT IS FURTHER RESOLVED that if both grants are awarded, the County and City will either decline one of the grants or split the scope of each grant to ensure that the same cost will never be assigned to both grants.

DATED THIS _____ day of August, 2026.

**JOSEPHINE COUNTY
BOARD OF COMMISSIONERS**

Ron Smith, Chair

Colene Martin, Vice Chair

Gary Richardson, Commissioner

Re: Letter of Support - City of Cave Junction Water and Sewer Line Extension Project

To Whom It May Concern:

The Josephine County Board of Commissioners is pleased to express its strong support for the City of Cave Junction's application for funding through the Regional Infrastructure Fund to assist with the proposed water and sewer line extension project.

Reliable water and wastewater infrastructure is essential to the health, safety, economic vitality, and long-term sustainability of our communities. The proposed extension will help address critical infrastructure needs in the Illinois Valley and provide capacity to support responsible growth and development.

Josephine County recognizes the importance of investing in infrastructure that strengthens local communities and creates opportunities for future economic development. Improvements to the City's water and sewer systems will benefit existing residents and businesses while helping position Cave Junction to accommodate future housing, commercial activity, and other community needs.

This project also represents an important investment in the broader Illinois Valley and throughout Josephine County. Strong municipal infrastructure contributes to a more resilient local economy, supports public health and environmental protection, and enhances the ability of communities to attract and retain businesses and residents.

For these reasons, the Josephine County Board of Commissioners respectfully encourages the State of Oregon to give favorable consideration to the City of Cave Junction's funding application. We believe this project is a worthwhile investment in the community and in the future of both the City of Cave Junction and Josephine County.

Thank you for your consideration and for your continued investment in infrastructure projects that strengthen Oregon communities.

Sincerely,

Josephine County Board of Commissioners

Ron Smith, Chair

Colene Martin, Vice Chair

Gary Richardson, Commissioner
